# **COMMISSION YOTE IN JERSEY APRIL 15**

Petitions Under Walsh Act to Be Collected To-night in Four Cities.

CAMPAIGNS UNDER WAY

Jersey City, Hoboken, Bayonne and Union Hill to Have Elections.

The men in Jersey City, Hoboken, Bayonne and Union Hill who are running the preliminary campaign in the interests of commission government have decided to file on the same day with their respective city or town clerks the petitions now in circulation calling for special elections on the question of adopting or rejecting the so-called Walsh act or commission plan law It will then be necessary for the clerks. under the law, to provide for elections on the third Tuesday following the date of filing, which, in accordance with a carefully prepared programme, will fall on Tuesday, April 15.

Members of the Jersey City Common Government League, which includes politicians of many brands, as well as non-partisans and independents of divers kinds, are having smooth sailing in their quest for signers. There will be a general roundup of petitions to-night and is expected that they will contain the names of at least 15,000 voters. Under the law commission government can-not be adopted unless a majority of votes east for the proposition constitutes 30 per cent, of the total vote cast at the last preceding election for Assemblymen. In Jersey City, therefore, 12,000 votes at least must be cast in favor if commission government is to prevail.

County Judge Robert Carey, who helped to draft the Walsh act and who has made hundreds of speeches in many States in favor of the commission plan. said last night that there is no doubt in his mind that for every one man who votes for the rejection four or five men will east their ballots for adoption.

preliminary campaign is the fact that the great majority of the Jersey City policemen are hustling for commission government. They are influenced largely by the fact that Mayor Wittpenn and his administration officials favor the commission plan and because they have been told that the new style of govern ment will have a tendency to keep politics out of the department. Jersey City policemen, like the police of many other cities, have been under the thumb of professional politicians in the years gone by and are beginning to figure, they say, that if the commission plan really produces a non-partisan government they will not be obliged to hand up political campaign assessments every time an election comes around.

The only outward opposition to the commission plan that has so far developed in Jersey City comes from the Socialoped in Jersey City comes from the Socialists. They declare that commission government is not desirable for a municipality, as it destroys parties, and they are most anxious to preserve and build up the Socialist party. If city commissioners are to be selected from a list of men without party designation, which is the case under the Walsh act, the Socialists say there can be no hope for the grewth of the Socialist party and therefore they are against the commission plan. It is an open secret that although many prominent politicians of all parties are on the commission government band wagon, many others who have had their fingers deep in the political pies of bygone days are working quietly against the plan days are working quietly against the plan

to do away with the ninety-two heads of departments in Jersey City and place the entire control of affairs under the management of a commission of five men. Commission government will probably have a hard row to hoe in Hoboken owing to the opposition of the Democratic organization, which objects to any change in the present system now under its control. It is understood that all is not harmony in the organization on the question of the forthcoming special election and the machine may not work unanimously to

The boomers in Union Hill are afraid that the Democratic organization in that town will beat commission government. They are keeping up the fight, however, in the hope that the agitation will bring about a realization of their plans two years from now, when the question can again be put before the voters. Many of the commission boomers are also looking forward to the consolidation of Union Hill and all the other municipalties in the northern part of Hudson county, including West Hoboken, North Bergen, West New York, Guttenburg, Weehawken and Secaucus. as one city. If consolidation comes Hudson county will have its fourth city, and the commission plan boomers say with consolidation will surely come government by commissioners. The boomers in Union Hill are afraid

say with consolidation will surely come government by commissioners.

In Jersey City only one big mass meeting will take place during the campaign preceding the special election. It will be held in the Jersey City High School, with Joseph A. Dear, president of the Commission Government League, as the chairman. The speakers will be acting Governor James F. Fielder, Mayor H. Otto Wittpenn and County Judge Robert Carey.
